Web-Hotel: A university assignment developed in .Net to develop a dynamic website for a client.

COMMUNICATION

I am mostly the center of the team who communicate with everyone or plays important role in taking a decision or playing vital role when everyone is confused and down. I really love to work as a catalyst to motivate my team and hence achieving a great output compared to the efforts put in.

LEADERSHIP

Former President, Western Sydney International Student Association (WSISA)

Acted as a president to play an important role to pull the club from zero popularity to one of the most popular club of the university. Proposed and carried out several events to engage students throughout the semesters.

Former Steering Committee Member, Western Sydney University of Bangladesh Student Society

Acted as a key role to bring the club under light and also developed the club strategies to maintain the ethnicity and diversity of the society.

AVAILABILITY

Currently available for 3-4 days in a week and have full time availability from June 2019.
